

AMENDMENTS

In the claims:

This list of claims replaces all prior versions and listings of claims in this application.

1. (Currently Amended) A portable case in which a mirror for reflecting light from skin is installed in a cover body for opening and closing a case body including a storage part, comprising:

a light source part ~~capable of radiating multiple types of light toward skin~~ having plural types of light-emitting elements placed in said case body in order to vary the hue of [[the]] light directed toward skin of a user of the portable case;

a battery for powering the light source part; and

[[a]] selector ~~switch~~ switches for selectively switching the type of the light emitted from the ~~light source part~~ light-emitting elements.

2. (Original) A portable case according to claim 1, further comprising:

a light control means for controlling the brightness of the light emitted from the light source part.

3. (New) A portable case according to claim 1, wherein said light-emitting elements are placed within a concave part near a portion where said cover body is attached and area inclined forward and upward so as to emit lights in the front and upward direction from a rear portion of said case body.

4. (New) A portable case according to claim 3, further comprising:

a light control means for controlling the brightness of the light emitted from the light source part.
